Dr. Katherine Johnson
Langley Research Institute
1 Discovery Way
Hampton, VA 23666

Dear Dr. Johnson,

Thank you for meeting with our team last week. We were delighted by your interest in using our trajectory toolkit for the institute's upcoming programme, and we have prepared the proposal you asked for, together with an estimate of the integration work.

In summary, we would provide the analysis libraries under an institutional licence, train two members of your staff over the first month, and remain available for consultation throughout the project. The enclosed schedule shows a first milestone eight weeks after signature, with weekly progress reports in between.

We understand that verification matters more than speed in this work. Every calculation the toolkit performs can be exported and checked independently, and we would welcome your team reviewing the methods before any results are relied upon.

Please let us know if you would like to discuss the details in person. We look forward to working with you.

Kind regards,

Margaret Hamilton
Director of Engineering
